The University of Chicago Press Contributions to Education

By *JOHN DEWEY*, Professor and Head of Department of Philosophy in the University of Chicago, and *ELLA FLAGG YOUNG*, Professor of Education in the University of Chicago

THE series as a whole aims to effect the union of educational theory and practice in distinction from vague enthusiasm, loose exhortation, and abstract theorizing. It endeavors to bring the discussion of actual school practice to the test of the fundamental principles involved. These principles are derived from modern psychology and social philosophy, and are stated in a simple and non-technical manner. The series will bring its readers into touch with what is vital in contemporary educational philosophy

12mo, paper. Price for series on one order to same address, net, \$1.50 - postpaid, \$1.75

No. 1. ISOLATION IN THE SCHOOL - - - By *Ella Flagg Young*

This contribution discusses the vexed question of school organization in the light of recent psychological and ethical thought, treating the school as an institution among other institutions. It shows the necessity of cooperation and inter-action among the various parts that make it up, more specifically the teaching and supervising factors. It shows how impossible it is to secure genuine cooperative unity without intellectual or moral initiative on the part of the teaching corps and the functions that would then be performed by the teaching force. Organization is treated not as an external arrangement, but as the fulfillment of fundamental, intellectual, and moral conditions. While much has been written concerning the details and methodism of school organization, it may be doubted whether any such thoroughgoing discussion has been given to the public as that contained in Professor Young's contribution. It is anticipated that the book will give a point of departure for future discussions.

111 pages, 12mo, paper, net, 50 cents - - - - - postpaid, 55 cents

No. 2. PSYCHOLOGY AND SOCIAL PRACTICE - - - By *John Dewey*

This contribution shows why psychology is necessary to the teacher in doing his work in social and moral directions. It shows that the more pupils are considered as moral personalities, the greater is the need of understanding the workings of personality and the means by which ethical ends are realized. In distinction from those who oppose the psychological and the social ideals of education to each other, it is shown how necessary they are to each other.

42 pages, 12mo, paper, net, 25 cents - - - - - postpaid, 28 cents

No. 3. THE EDUCATIONAL SITUATION - - - By *John Dewey*

This contribution reviews the entire educational situation, taking up first, the Elementary School; second, the High School, and third, the College, showing how conditions due to their origin and past history conflict with present demands and responsibilities and the nature of the readjustment thus made necessary. It is a summary of educational history on one side and the present social situation and the reform it requires in the school system on the other. It is a calm, clear, and condensed statement of the forces now at work in the educational world and of the direction they must take in the future.

125 pages, 12mo, paper, net, 50 cents - - - - - postpaid, 55 cents

The first three numbers noted above are now ready. The last three numbers of the series will be ready about February 1, 1902. They are as follows:

BUFFALO LITHIA WATER In All Forms of Bright's Disease, Albuminuria of Pregnancy, Uric Acid Diathesis, Gout, Rheumatism, Lithæmia, Renal Calculi, and Stone of the Bladder, Etc., Etc.

Dr. George Ben Johnston, Richmond, Va., ex-President Medical Society of Virginia and Professor of Gynecology and Abdominal Surgery, Medical College of Virginia: "IF I WERE ASKED WHAT MINERAL WATER HAS THE WIDEST RANGE OF USEFULNESS, I WOULD UNHESITATINGLY ANSWER BUFFALO LITHIA. It is a most valuable remedy in many obscure and stubborn conditions which, at best, yield slowly, if at all, to drugs. In URIC ACID DIATHESIS, GOUT, RHEUMATISM, LITHÆMIA, and the like, its beneficial effects are prompt and lasting.

"Almost any case of **Pyelitis** and **Cystitis** will be alleviated by it and many cured.

"I have had evidence of the undoubted **DISINTEGRATING, SOLVENT, and ELIMINATING POWERS** of this water IN **RENAL CALCULUS**, and have known its long continued use to **permanently break up the gravel-forming habit**.

"It is an agent of great value in the treatment of the **Albuminuria of Pregnancy**, and is an excellent diuretic in **Scarlatina** and **Typhoid Fever**. In all forms of **BRIGHT'S DISEASE**, except those hopelessly advanced, its good effects are pronounced. I believe it has been the means of prolonging many lives in this trouble."

John V. Shoemaker, M.D., LL.D., Professor of Materia Medica and Therapeutics in the Medico-Chirurgical College of Philadelphia, etc., in the New York Medical Journal, June 22, 1899: "The **BUFFALO LITHIA WATER** is **DOUBLY EFFICIENT** in **Rheumatism and Gout**. It dissolves Uric Acid and Phosphatic sediments, as well as other products difficult of elimination, while at the same time it exerts a moderately stimulant effect upon the renal cells, and thereby facilitates the swift removal of insoluble materials from the body. Without such action insoluble substances will precipitate in the Kidneys and Bladder. The intense suffering produced by **Stone**, together with consecutive **pyelitis** and **cystitis**, are avoided by prompt elimination. Unquestionably, although the speedy removal of **Uric Acid** and other products of faulty tissue change is of conspicuous benefit, **yet to PREVENT** their formation is a service still more important. This service is performed by the **BUFFALO LITHIA WATER** when it corrects those digestive failures which are responsible for the production of deleterious materials."

James L. Cabell, M.D., A.M., LL.D., Formerly Professor of Physiology and Surgery in the Medical Department of the University of Virginia, and President of the National Board of Health, says: "**BUFFALO LITHIA WATER** in Uric Acid Diathesis is a well-known therapeutic resource. It should be recognized by the profession as an article of *Materia Medica*."

Dr. J. W. Mallet, Professor of Chemistry, University of Virginia. (Extract from report of analysis of **Calculi** discharged by patients under the action of **BUFFALO LITHIA WATER** Spring No. 2):

"It seems on the whole probable that the action of the water is **PRIMARILY and MAINLY** upon **URIC ACID** and the **URATES**, but when these constituents occur along with and as cementing matter to **Phosphatic or Oxalic Calculus materials**, the latter may be so detached and broken down as to disintegrate the Calculus as a whole in these cases, also thus admitting of Urethral discharge."

Spring No. 1 is both a **NERVE** and a **BLOOD TONIC**, and in **PALE, FEEBLE, and ANÆMIC SUBJECTS** is to be preferred. In the absence of these symptoms No. 2 is to be preferred.

BUFFALO LITHIA WATER is for sale by Grocers and Druggists generally.

WEBER PIANOS

Weber pianos have been before the public for half century, and now hold a supreme position in the piano world. This fact alone is decisive proof of the genuine worth of these pianos, for had they not again and again justified their claims upon public confidence, they could never have achieved such a splendid triumph over interested opposition and criticism during so long a period. *Their success is due to the fact that they recommend themselves.*
